Email: kushagrasaxena1309@gmail.com
Mobile: +91-6394109197

SKILLS

• Languages:	C, C++, Python, SQL, Java, JavaScript
• Frameworks/Libraries:	NumPy, Pandas, Seaborn, Matplotlib, Scikit-learn, HTML, CSS
• Tools/Platforms:	Microsoft Power BI, Google Colab, Jupyter Notebook, Git, GitHub, Docker, Linux
• Soft Skills:	Adaptability, Team player, Active Listening

PROJECTS

• Academic Success Predictor – ML Project: GitHub	Jan 2026-Feb 2026
Analyzed student academic data to predict performance using behavioral and lifestyle features. Applied feature encoding and discretization (tokenization-like processing). Used feature reduction and standardization (lemmatization-like simplification) Trained and compared multiple ML models. Tech: Python, Pandas, NumPy, Scikit-learn, Matplotlib	
• AI Agent using Google Gemini API GitHub	Dec 2025-Jan 2026
Built a shell-based AI agent using Google Gemini API (@google/genai) to automate tasks via function calling . Implemented multiple tools including math operations, prime check, crypto price tracking, and weather API integration . Integrated real-time APIs (CoinGecko & OpenWeather) for live data retrieval Tech: JavaScript (Node.js), Google Gemini API (@google/genai), Function Calling, CLI (readline-sync)	
• Voice Recognition System: GitHub	Feb 2025-May 2025
Developed a system to convert spoken language into written text using Python. Implemented linguistic and acoustic modeling to recognize words and sentences from speech. Captured audio via microphone, converted it from analog to digital, and processed it into text. Integrated pytsx3 for text-to-speech, enabling the system to speak back. Tech: Python, Speech Recognition, Pytsx3	
• Raj Medical Store – Web Application	Sep 2024-Dec 2024
Developed a full-stack medical store website using the MERN stack. Built responsive user interfaces using React for product browsing. Designed MongoDB schemas for medicines, categories, and orders. Used AI-assisted prompts for UI layout planning and feature structuring. Tech: MongoDB, Express.js, React.js, Node.js, JavaScript, AI Tools	

CERTIFICATES

• Supervised Machine Learning Coursera	Jan- 2026
• Cloud Computing NPTEL	Apr -2025
• Data Analytics Deloitte	Apr-2023

ACHIEVEMENTS

• Competitive Programming	Dec 2025
Solved 400+ DSA problems on coding platforms.	
• Microsoft Hackathon – Participant:	Nov 2024
Showcased innovation, teamwork, and problem-solving skills in a competitive environment.	

EDUCATION

• Lovely Professional University	Punjab, India
<i>Bachelor of Technology in Computer Science and Engineering: CGPA: 7.7</i>	
• Shivaji Inter College	Uttar Pradesh, India
<i>Intermediate: Percentage: 71.6%</i>	
• Vikram Khanna High School	Uttar Pradesh, India
<i>High School: Percentage: 84.2%</i>
